EXPERIENCE

AI Systems & Automation Specialist
CitizenShipper
Feb 2025 - Present

- Build and maintain n8n, Zapier and Make automations and end-to-end API integrations with Slack, Twilio, Stripe, Brex and advertising platforms.
- Design workflows for review ingestion, background checks, onboarding flows, CRM updates, data synchronization, internal tools and real-time notifications.
- Apply AI to classification, drafting, research, routing and decision support, with human review for sensitive or high-impact actions.
- Implement monitoring, validation, deduplication, retries, alerting and recovery procedures to keep production workflows dependable.
- Diagnose bottlenecks and deploy automation solutions that save 20-40+ hours per month across several departments; collaborate with leadership on tool usage and system performance.
- Create AI-generated videos and animated assets for marketing campaigns.

Customer Success
CitizenShipper
Oct 2023 - Apr 2025

- Analyzed CS trends and workflow gaps; worked with Product, Engineering and Operations on escalations, ticket flows, documentation and SOPs.

Customer Success Manager
Psilolabs | Part-time, Remote
Sep 2022 - Sep 2023

- Resolved email and phone issues with 95%+ CSAT; triaged 100+ inbox inquiries daily and cut repeat contacts by 20%.
- Coordinated escalations protecting 98% of at-risk renewals; process improvements lifted retention by 15%.

Team Lead
Concentrix
Jun 2021 - Feb 2022

- Promoted to Team Lead; coached agents, gave live feedback, handled escalations and reviewed AHT, QA and first-contact resolution.

Bilingual Customer Service Representative
Concentrix
Feb 2020 - Jun 2021

- Supported Apple customers in English and Spanish, documented interactions and collaborated on complex customer issues.

Customer Success Manager
Plantcado
Feb 2018 - Feb 2020

- Primary customer contact for product guidance, timely issue resolution and follow-up.
